Arragons Cycles, Penrith

Arragons Cycles is delighted to be offering cycle-hire once again at Lowther Castle. As our many friends and followers know, we are a well-established independent family business that has been part of the Penrith landscape for over 50 years. All members of our team are extremely knowledgeable and will ensure that you embark on your trip with a bike that is best fitted to you and your cycling experience.

Lowther Estate Trails

The network of trails that runs throughout the Lowther Estate leads cyclists through some of the most stunning Lake District scenery. The trails are mainly traffic free, with a few sections of main roads, most of them quiet. Routes cater for all ages and abilities. Circular routes take in ancient woodlands, pastures and the River Lowther. Longer trails go to Ullswater and Haweswater.

Electric Mountain Bikes

The amazing electric bike can travel over 40 miles in a day. Its 'pedal-assist' gives strength to even the least practised of cyclist. If you opt for a half day hire, you can still with ease cycle to the top of Askham Fell, take in spectacular views over Ullswater and return to Lowther Castle; or enjoy the circular route to Haweswater taking in Bampton Grange, via Knipe; Bonby and Rosgill Common and Haweswater reservoir, where the village of Mardale once stood.
